Segítse a madárinfluenza megfékezését!

A vadmadárvonulások időszakában a madárinfluenza fokozottan veszélyezteti Magyarország szárnyasállományát.

-  **Ne próbálja megetetni** a beteg vadmadarakat!
-  **Ne közelítsen és ne érjen** az elhullott vagy agonizáló szárnyasokhoz!
-  **Ne akarja megmenteni** és ne vigye állatorvoshoz a beteg állatot!
-  **Értesítse a járási főállatorvost,** ha beteg vadmadarat észlel!
-  **Mindig fertőtlenítse** a cipőjét, ruházatát madárles után!
-  **Fokozottan tartsa be** a járványvédelmi előírásokat!
