

Implementation of the co-financed program 2013 for the control and monitoring of classical swine fever in Germany

- CSF free status (domestic pig)

- CSF free status (wild boar) following

-- Commission Implementing Decision 2012/250/EC of 08.05.2012
(amending Decision 2008/855/EC – entry for Germany set out in Part I of Annex deleted)

-- Commission Implementing Decision 2013/164/EC of 27.03.2013
(repealing Decision 2003/135/EC)

Commission Implementing Decision 2012/761/EC (Art. 6 (1)):

Monitoring (wild boar and domestic pig) continued

- fallen and shot wild boar
- domestic pigs (risk based)

No CSF-outbreaks in 2013

Tests in total (wild boar and domestic pigs):

77.674 ELISA

27.423 PCR

3.725 virus isolation

839 other tests

→ **all 109.661 tests with negative results**
