3 new outbreaks in the southern cluster

# ASF eradication

Situation in pigs

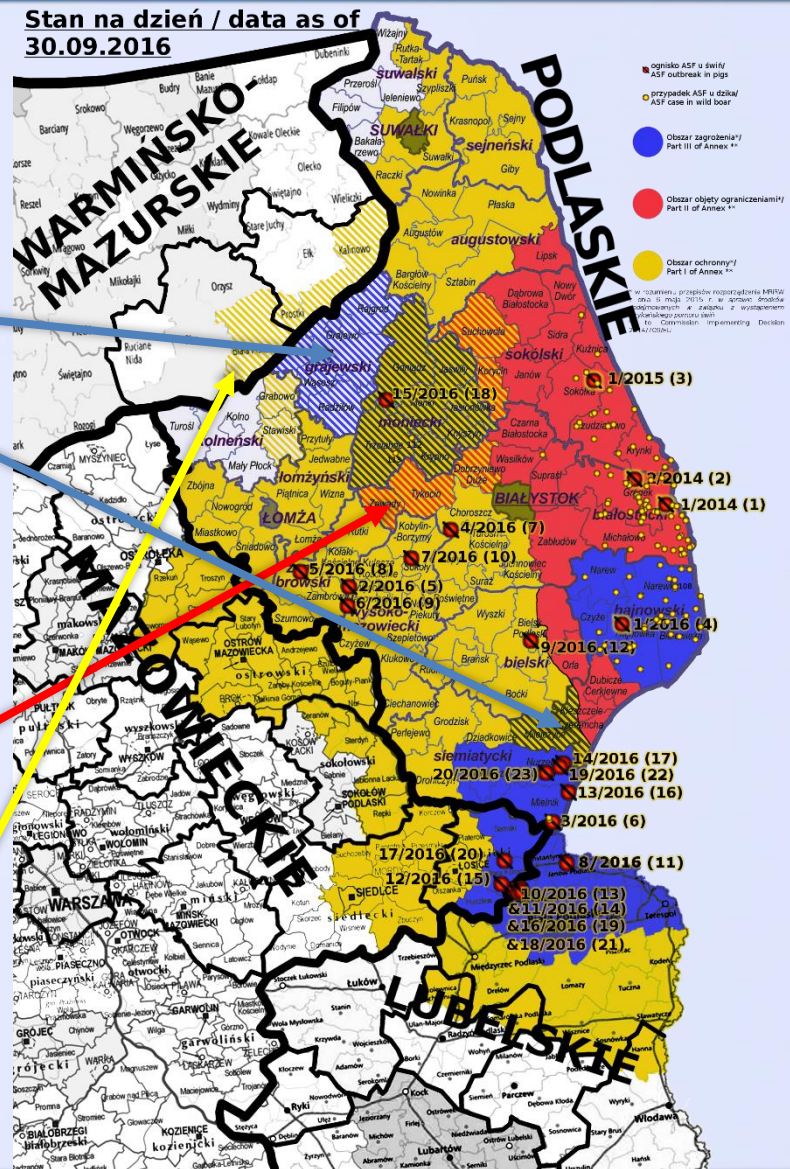

## Measures implemented

- Standard measures set up in Directive 2002/60/EC
- Decision was made to kill all the pigs in the localisations where more than one outbreak has been detected recently [in progress]

# ASF eradication

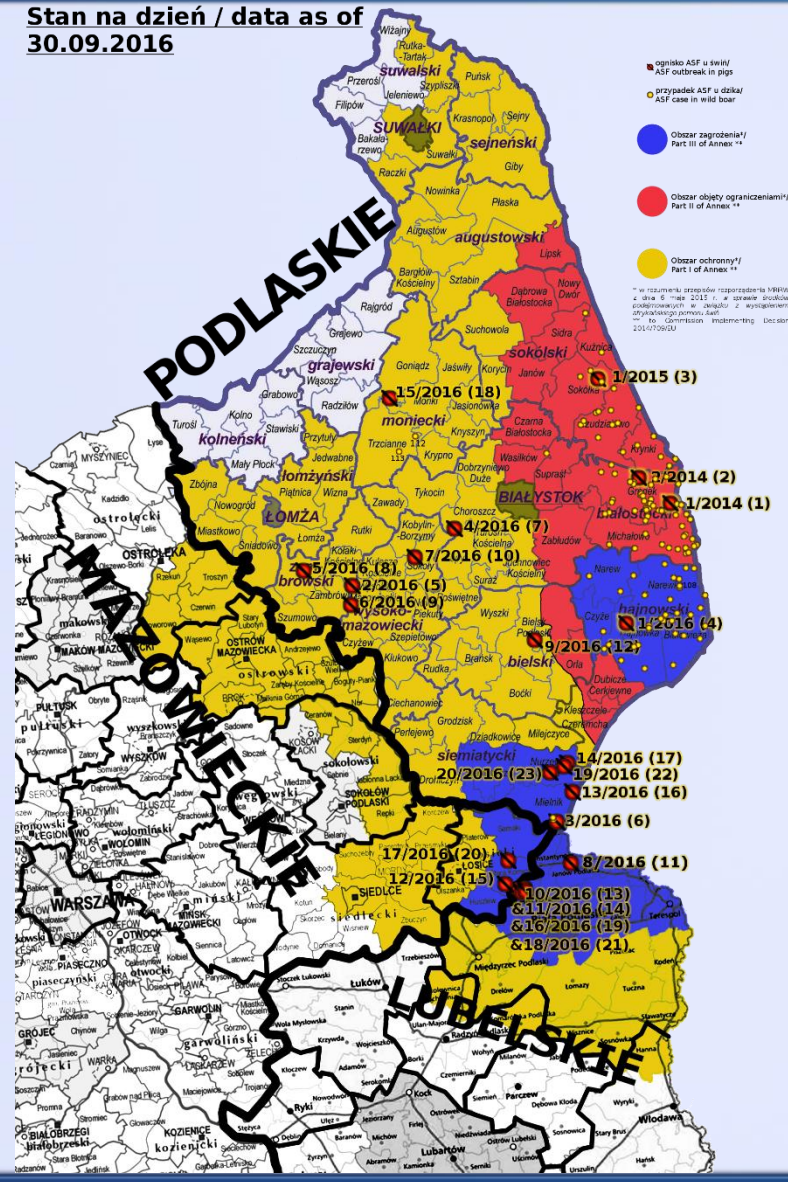

- ## Measures to be implemented
- Establishment of a new Part III zone
  - Enlargement of Part III zone
  - Enlargement of the existing Part II zone (to connect the existing Part II with the new Part III)
  - Establish a buffer (Part I) around the new Part III
