European Union Comments

CODEX COMMITTEE ON PESTICIDE RESIDUES

46<sup>th</sup> Session

Nanjing, China, 5 – 10 May 2014

AGENDA ITEM 7

**Discussion paper on the applicability of Codex Maximum Residue Limits for Citrus  
fruits to kumquats**

**(CX/PR 14/46/6)**

*European Union Competence.*

*European Union Vote.*

The European Union (EU) would like to thank Japan for the discussion paper prepared on the applicability of CXLs of Citrus fruits to kumquats.

The EU notes that the recommendations proposed in the document **CX/PR 14/46/6** are in line with the new Codex classification for Fruits and supports them.

A typo mistake has been noted in Table 1 of the document, where the HR for Dimethoate is 4.4, instead of **1,4**, which is the value explained in the footnote 'b' to the same table and reported in the 2003 JMPR Report (page 80).
