SUMMARY REPORT

A.01 General information by third countries.

No item raised.

A.02 Information point on import-export issues between the EU and UK (GB).

No item raised.

A.03 State of play of the next residue decision including the list of third countries eligible to export casings to the EU, composite products (footnotes) and aquaculture products.

The Commission informed Member States about the state of play of the ongoing revision of the Residue Decision including the list of third countries eligible to export casings to the EU, composite products (footnotes) and aquaculture products. For consistency matters Decision 2011/163/EU and Regulation (EU) 2021/405 would be aligned regarding the terminology/presentation used and the aquaculture products column in the residue Decision. Indeed, the Annex will be split into 3 sub-columns to reflect the aquaculture products residue monitoring plans submitted by third countries exporting such products to the EU. One Member State raised a question on composite products for Mexico.

B.01 Exchange of views and possible opinion of the Committee on a draft Commission Implementing Decision on the evolution of animal diseases in third countries.

No item raised.

B.02 Exchange of views and possible opinion of the Committee on a draft Commission Regulation amending Regulation (EU) No 142/2011 as regards adaptation of the lists of third countries, territories or zones thereof from which the entry into the Union of animal by-products and derived products is permitted.

The draft was presented to the Committee for discussion. The Commission asked Member States to send their comments by Friday, 24 September 2021, in order to launch the vote by written consultation as soon as possible.

Outcome of the vote by written consultation: Favourable opinion.
