

# HIGHLY PATHOGENIC AVIAN INFLUENZA (HPAI)

Map of HPAI outbreaks in the EU during 2021-2022 epidemic season  
(1 October 2021 – 30 September 2022)

## **CHRONOLOGY OF MAIN EVENTS AND LIST OF DECISIONS ADOPTED BY THE EUROPEAN COMMISSION**

### **Response to HPAI outbreaks in EU Member States from 1 October 2021 until 30 September 2022**

**EUROPEAN COMMISSION  
DG Health and Food Safety (SANTE)  
Unit G2: Animal Health**

This document summarises basic information on the outbreaks of Avian Influenza (AI) in several EU Member States and related EU action. It focuses on the animal health aspects.

For additional information, please refer to the Decisions in the Official Journal, the Commission's [avian influenza webpage](#) and associated [press releases](#). EU legal texts – Commission Decisions (CD) and Regulations (RG) can be accessed via the [EUR-Lex](#) webpages.

For more general animal health information, please refer to the [Commission's webpage](#).

For human health information, please refer to the [Commission's relevant webpage](#) and the website of the [European Centre for Disease Prevention and Control](#).

As regards international organisations please refer to the [AI web pages of the World Animal Health Organisation](#) (OIE), the [AI web pages of the Food and Agriculture Organisation](#) (FAO) and the [AI web pages of the World Health Organisation](#) (WHO).

Info-notes on AI occurrences in Member States (MS) and information on the Commission's work are sent to EU Member States and many third countries trading with the EU. These documents are referenced, starting each year with Info-note 01. Please note that information on LPAI outbreaks in Member States is not included in this chronology.

Date	Member State	Main event	Action by the European Commission, Member States' authorities and stakeholders	Legislative action	EU support
30/9/2022	BE	HPAI H5N1 in poultry and captive birds	<b>Info Note 115</b> with information received from the Belgian authorities regarding confirmation three outbreaks of highly pathogenic avian influenza of subtype H5N1 in two establishments with captive birds and in a poultry establishment where approximately 150.000 laying hens were kept. The outbreaks are located in Limburg, West Flanders and East Flanders Provinces.		
20/9/2022	BE, DE, ES, FR, IT, NL, PL, DK	Amendment of EU regionalization	<b>Info Note 114</b> with regarding adoption by the Commission on 30 September 2022 of Implementing Decision (EU) 2022/198 amending the Annex to Implementing Decision (EU) 2021/641 concerning emergency measures in relation to outbreaks of highly pathogenic avian influenza in certain Member States. The Decision was published on 5/10/2022, in the Official Journal of the European Union L 257.
