

**Minutes of the meeting
of the expert group on a Commission Delegated Act under Regulation (EU)
2016/1012 ("Animal Breeding Regulation")**

15 November 2016, Brussels

1. Approval of the agenda

2. Nature of the meeting

The meeting was non-public. The Member States' representatives from the competent authorities were participating in the meeting.

3. List of points discussed

1. Exchange of views on a draft Commission Delegated Regulation supplementing Regulation (EU) 2016/1012 ("Animal Breeding Regulation") as regards the content and format of zootechnical certificate issued for purebred breeding animals of the equine species contained in a single lifetime identification document for equidae. (Working document SANTE/7097/2016)
2. Miscellaneous.

4. Conclusions/recommendations/opinions

The text of draft Delegated Act presented during the expert group meeting was supported in general by the Member State experts. The main issue that was raised and discussed related to the format of the individual identification number of purebred breeding animal of the equine species. Some Member States were of the opinion that it should be the unique life number as defined in Regulation (EU) 2015/262 compatible with the Universal Equine Life Number (UELN), but the other Member States opted for a change to the current rules.

Finally, it was agreed that the format and content of the individual identification number referred to in point 3 of Chapter I of Part 1 of Annex II to Animal Breeding Regulation cannot be decided until the detailed requirements for the means and methods of identification, including their application and use, have been adopted in accordance with Article 118(1)(a) of Animal Health Law. Nevertheless, form fields should be provided in the model zootechnical certificate to enter the unique life number assigned to purebred breeding animals of the equine species in accordance with Regulation (EU) 2015/262.

5. Next steps

Based on the comments provided by the Member States' experts new revision of the Working document SANTE/7097/2016 will be prepared by the Commission and presented during the next expert group meeting.

6. Next meeting

The next meeting is planned for 9 January 2017.
