

BCP facilities

Current situation

Directive 97/78/EEC and Regulation 882/2004/EC replaced by the Official Controls Regulation as of 14 December 2019

Decision
2001/812 and
Regulation
669/2009
= based on that
legislation

Art 64.4 of the OCR:
Detailed rules on the requirements
to take into account specific
features and logistic needs, in
relation to the different categories
of animals and goods and measures
to be taken in cases of non-
compliance

Minimum requirements (article 64.3)

Border control posts shall have:

- suitably qualified staff
- appropriate equipment, premises and facilities
- contingency arrangements
- access to official laboratories
- (...)

Which detailed requirements for BCP facilities should be established, reflecting the broad(er) scope of the OCR?
