Yes

6.2.1 Please explain:

7. OTHER COMMENTS

7.1 Further written comments on the seeds and propagating material review:

The review of the EU Legislation should be considered first in relation to its initial objectives. The objectives may be changed. The objectives should be chosen in order to long term advantages, more than the impact on employment and administrative burden. Impact on innovation and research and environmental impact are becoming more and more important. For this reason also

the directive of ornamentals should be considered in this review.
