

## **Outcome of step 2 of the call for scientific and technical data on the permitted food additive processed Eucheuma seaweed (E 407a)**

The business operator Marinalg International has committed to providing technical, biological and toxicological data on the food additive processed Eucheuma seaweed (E 407a), addressing the request for data made in the call for data on E 407a. Work on the definition of the final deadlines for data submission is ongoing.
