Section C **Draft(s) presented for discussion**

- C.01** Exchange of views of the Committee on a draft Commission Regulation amending Regulation (EC) No 2074/2005 as regards the official controls on fishery products caught by Union flagged vessels and introduced into Union territory after being transferred in non-Union countries and establishing a model of the health certificate for those products. (PC/PL/BS)

The draft Regulation establishes the hygienic rules for fishery products caught by Union vessels, which are unloaded – with or without storage in cold stores – in non-Union countries before their final movement to the Union. It lays down a simplified model health certificate for these fishery products with the sanitary conditions for these fishery products, which has to be issued by the relevant non-Union country. The draft Regulation harmonising the import conditions should go together with the draft Decision derogating from full import controls in BIPs for Union fishery products (SANTE/10576/2016).

(C.01_SANTE_10575_2016)

Legal Basis: Regulation (EC) No 853/2004 Article 9; Regulation (EC) No 854/2004 Article 16; Directive 97/78/EC Articles 3, 4 and 5

Procedure: Examination procedure

- C.02** Exchange of views of the Committee on a draft Commission Implementing Decision as regards fishery products caught by Union Member State's flagged vessels and entering the Union territory after being transferred in non-Union countries. (PC/PL/BS)

The draft Decision derogates from full import controls in Union border inspection posts (BIPs) for fishery products caught by Union vessels, which are unloaded – with or without storage in cold stores – in non-Union countries before their final movement to the Union. For such products only a documentary check needs to be carried out at the BIP of entry to verify that they are originating from Union vessels and that no processing took place in the non-Union country in which they were unloaded. Therefore, and to harmonise import controls, it lays down that the simplified model health certificate laid down in the draft Regulation SANTE/10575/2016 needs to be checked.
