# ADIS

PAFF Committee 7 April 2022

*DG SANTE – Unit G2 Animal health  
European Commission*

# Outline

- Launch of ADIS UR Module and Overall Roadmap
- Updates of ADIS Legal Basis
- Union Notification Requirements – Delays in updates of outbreak data

# Launch of ADIS UR Module and Overall Roadmap

# Release 6.3.5 of IMSOC (including ADIS) was released on 30 March 2022

- This release included **ADIS Union Reporting (UR) module**
- Since Monday 4 April, ADIS UR **Users** have been assigned → email sent
  - 130 users (including ADIS Key Users) can access UR modules
  - 25 MS already connected → **LT already submitted Detection of listed diseases !!!**
- NB Art 6 of Reg 2020/2002 (AI USP) → EFSA

# Release 6.3.5 of IMSOC (including ADIS) was released on 30 March 2022

- 11 Eradication Programmes were created → now for MS to fill in (Art 7 of Reg 2020/2002)
  - **NB:** only those 11 eradication programmes approved before the AHL need to be reported on under Article 7 this year, and that the rest will be introduced in the system after 1 May
- Note the **legal deadline of 30/4/2022** (for both Art 4 and 7 of Reg 2020/2002)

# Changes in ADIS UR (Art 4 of Reg 2020/2002)

Following input from MS during the training of March 2022

- Need to have the option for disease present but not confirmed → fixed

Echinococcus multilocularis (Inf. with) (2014-) **Disease present but not confirmed in 2021** Confirm data for report:  Yes  No 

Disease never reported

Disease not confirmed in 2021

Disease present but not confirmed in 2021

Disease confirmed in 2021

Type of pathogen:  

**No pathogen selected**

# Changes in ADIS UR (Art 4 of Reg 2020/2002)

Following input from MS during the training of March 2022

- Year of last outbreak: could be challenging → fixed

The screenshot displays the ADIS UR interface with a dropdown menu open for the 'Year of last outbreak' field. The dropdown lists years from 2019 to 2001, with '> 20 years ago' at the bottom. The interface includes several disease entries with 'Confirm data for report' radio buttons (Yes/No) and a search bar for 'Type of pathogen'.

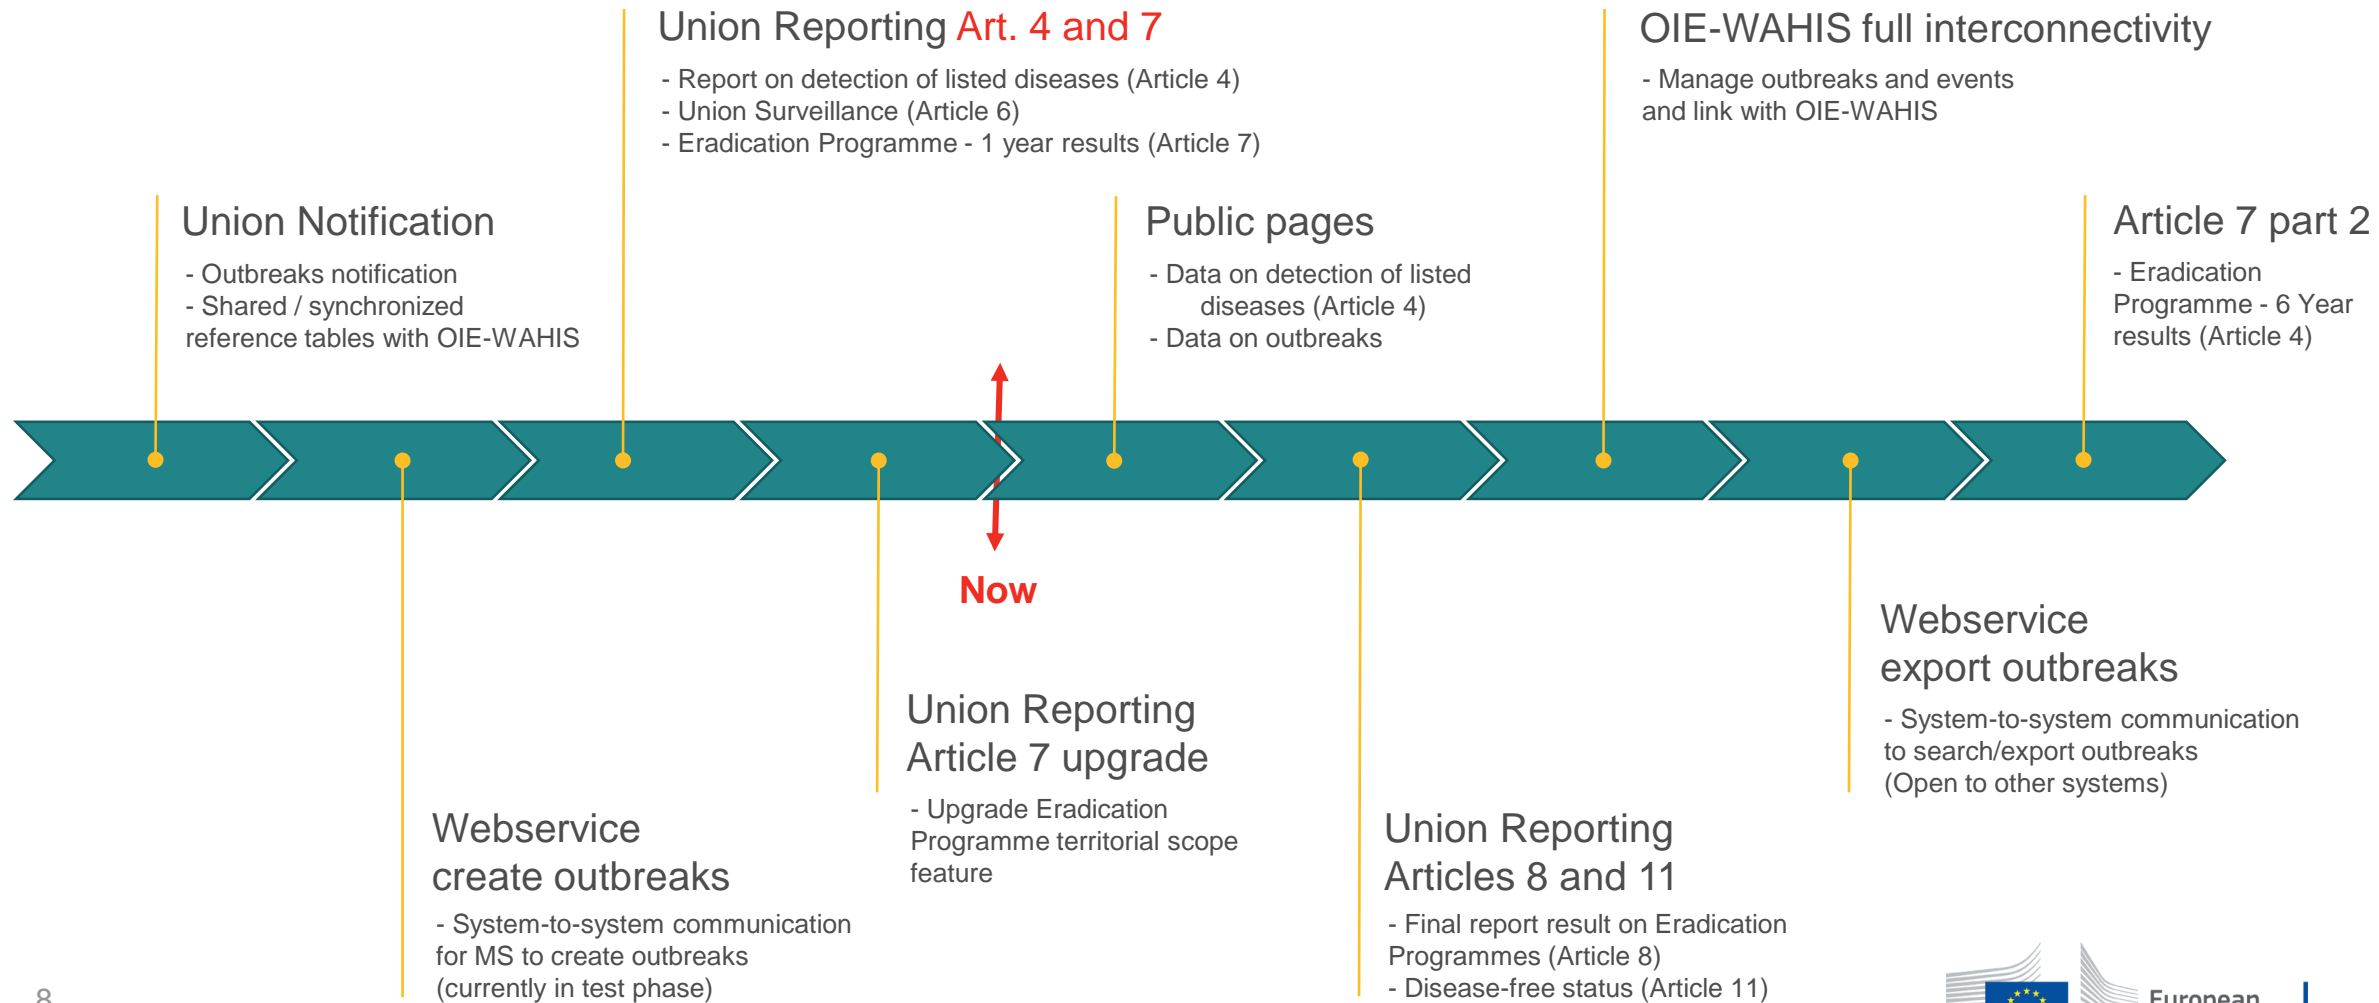

Disease	Confirm data for report: Yes	Confirm data for report: No
Bluetongue virus (Inf. with)	<input type="radio"/>	<input checked="" type="radio"/>
Epizootic hemorrhagic disease	<input type="radio"/>	<input checked="" type="radio"/>
Anthrax	<input type="radio"/>	<input checked="" type="radio"/>
Surra (Trypanosoma evansi)	<input type="radio"/>	<input checked="" type="radio"/>

Year of last outbreak: \*

Type of pathogen:

# ADIS Roadmap

COMMISSION IMPLEMENTING REGULATION (EU) 2020/2002

# Updates of ADIS Legal Basis

# Need to update implementing regulation 2020/2002

THREE ISSUES that need to be addressed:

1

- **Revise Annex II to clarify if the outbreak occurred in an area already under restriction:**

so that MSs signal the following: “For all category A diseases as identified in Commission Implementing Regulation (EU) 2018/1882 , indication if the outbreak occurred in a location already subject to restriction for the same disease based on Articles 64, 70, 71, 257, 258 or 259 of Regulation (EU) 2016/429”

# Need to update implementing regulation 2020/2002

THREE ISSUES that need to be addressed:

2

- Revise Annex II to clarify and reduce the scope of date of preliminary C&D:

**date of preliminary C&D is only for cat A diseases in kept animals:** “Date of completion of preliminary cleaning and disinfection following an outbreak of any category A disease in kept animals as identified in Commission Implementing Regulation (EU) 2018/1882”

# Need to update implementing regulation 2020/2002

THREE ISSUES that need to be addressed:

3

- revise Annex IV to add a reference to United Kingdom (Northern Ireland)

United Kingdom (Northern Ireland)	District
-----------------------------------	----------

# Need to update implementing regulation 2020/2002

These proposals will be submitted to the Committee in the following months in line with the usual procedure

# Union Notification Requirements

## Delays in updates of outbreak data

# Delays in updates of outbreak data in ADIS

Example in ADIS data from HPAI (in poultry) from June 2021 till March 2022:

- Several outbreaks are still without a date for “Preliminary Cleaning and Disinfection”
- This is a legal obligation in ANNEX II of Reg 2020/2002 to enter date for “Preliminary Cleaning and Disinfection”
