VETERINARSTVO IN VARSTVO RASTLIN

CSF monitoring programme 2015

Standing Committee on Plants, Animals Food
and Feed

Brussels, 1 – 2 June 2016

CSF monitoring program 2015

- CSF monitoring program
 - Monitoring program in domestic pig population
 - Monitoring in wild boar population

Monitoring program in domestic pig population

- Monitoring programme for pig holdings
 - Herd based sampling scheme to detect a 1% level of sero-positive herds with 95% confidence (149 pig herds) combined with the risk based approach
 - sampling in breeding herds
 - sampling in small breeding herds
 - investigation of fallen stock collected by VHS (Veterinary Hygienic Service) in regional units of NVI
 - Detection of within-herd prevalence of 5% with 95% confidence in breeding herds, also combined with risk based components
 - purchased breeding pigs
 - pigs with health problems

Monitoring program in wild boar population

- Monitoring program in wildboar population
 - Random sampling
 - Minimum of 406 samples
 - Risk-based
 - found dead wild boars and road-kills

Results of 2015 CSF monitoring programme

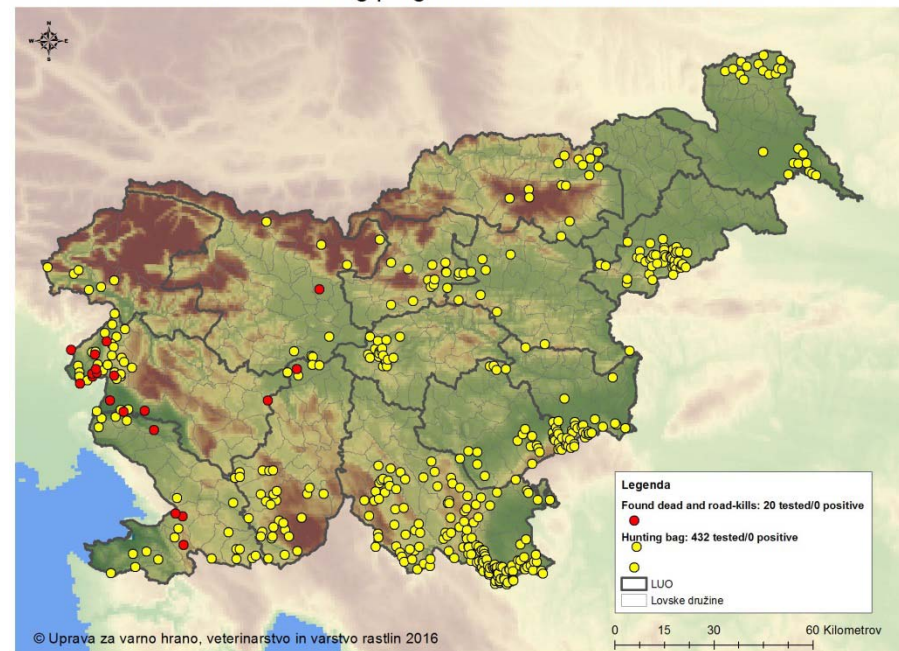

- Monitoring in domestic pig population
 - Testing of randomly selected farms (ELISA)
 - 149 holdings /3.123 samples
 - All negative
 - Testing of fallen stock (PCR)
 - 189 holdings /298 samples
 - All negative

Results of 2015 CSF monitoring programme

- Monitoring in wild boar population
 - Random sampling
 - 432 samples
 - Risk-based samples
 - 20 samples - fallen stock (PCR)
 - all negative

CSF monitoring programme in wild boar in 2015

Financial aspect

- Targets set in the approved programme for year 2015 were achieved
- Grant Decision for 2015
 - approved 22.000 €
 - Eligible costs (amount claimed) 13.189,26 €
