**Management of unsupported compounds without public health concern  
scheduled for periodic review**

**(CX/PR 24/55/7 – CL 2024/46-PR)**

*European Union Competence*  
*European Union Vote*

The European Union (EU) would like to thank the Electronic Working Group (eWG) on management of unsupported compounds without public health concerns scheduled for periodic review by JMPR chaired by Chile and co-chaired by Ecuador, India and Kenya for the preparation on the recommendations for the management of unsupported compounds without public health concern scheduled for periodic review.

The EU supports the recommendations proposed in the circular letter.

In addition, at the 54th CCPR Meeting, it was agreed to publish the options for data support<sup>1</sup> as an information document on the Codex webpage, however this document cannot be found on the Codex website, therefore the EU would like to know when the publication of the document is scheduled.
