Eradication: Final report for African Swine Fever 2019

For each approved annual or multi-annual programme Member States shall submit to the Commission by the 30 April each year an annual detailed technical and financial report covering the previous year. That report shall include the results achieved and a detailed account of eligible costs incurred (Art 14 of Regulation (EU) No 652/2014).

This form is for information only, no submission possible.

ID: 20200309-7BTZIEG8

Country code: LT

Reporting period

From: 2019

To: 2019

Year of implementation: 2019

1. Technical implementation of the programme

1.1 Description and evaluation of the evolution of the epidemiological situation, the technical implementation of the activities foreseen under the programme and the cost-effectiveness of the programme.

In 2019 in Lithuania have been found 464 places with 694 ASF affected wild boar (276 were hunted positive and 405 have been found dead).

In domestic pigs 19 outbreaks have been found and 184 pigs have been destroyed.

1.2 Details on the level of achievement of the targets set in the approved programme and technical difficulties.

All targets set in the programme has been met. Due to decreasing wild boar population, the target number of selective hunt have not be reached.

1.3 Epidemiological maps for infection and other relevant data on the disease/activities (information on serotypes involved,...) (Please attach files of data using the PDF attachment feature) Use the textbox below to provide clarifications for the maps you attach, if needed.

1. domestic pigs outbreaks 2019.pdf, informaton with outbreaks in domestic pigs in 2019.

2. wild boar cases 2019.pdf, information wiht outbreaks in wild boar in 2019.

2. Tables for SWINE DISEASES PROGRAMMES monitoring outcome of the year
VERY IMPORTANT: Please fill out the following tables with figures corresponding to measures performed during the implementing period (1/1 to 31/12)

Table A - DISEASE SURVEILLANCE IN DOMESTIC PIGS

Region	Number of clinical examined holdings	Number of farms sampled	Type of farm	Number of animals sampled	Number of farms with serologically positive result	Number of farms with active infection detection	Number of outbreaks
Alytus	1	1	Commercial	34	0	0	0
Alytus	24	56	Backyard	77	0	1	1

COMMENT / ADDITIONAL CLARIFICATION

There are no place to add data regarding the measure for "Slaughtering/culling of domestic pigs-full hlonging depopulation.

Please find the information in file "National payment agency 2019 data" from Lithuania National payment agency.

During 2019. ████████ Eur. were payed implementing that measure for 152 pigs slauhtered in 7 farms.
