Non conformities found out during the controls carried out in order to check the way of observing animals' protection and welfare during transport	Action plan	Deadline
Detection of animal transport traffic without the documents required by law.	<p>In the last year there have been two training in animal welfare that have been raised issues concerning the protection of animals during transport. The first training was held between 16-18 October 2012 and had two parts: theoretical and practical.</p> <p>The practical part consisted in checking and filling the journey log.</p> <p>A second training was held between 04-06. June 2012, and it included presentations on inspections regarding the protection of animals during transport organized by the veterinary authority in accordance with Reg. Cons. No. 1/2005/CE and on the annual reporting to E.C..</p> <p>There was also a presentation of the Commission Decision no.188/2013/CE on annual reports on non-discriminatory inspections carried out pursuant to Council Regulation (EC) No 1/2005 on the protection of animals during transport.</p> <p>During this training, were presented the conclusions of the study visit DG (SANCO) 2013-6903, carried out between 25 February and 1 March 2013 in the UK, in order to share experiences in official controls on animal welfare during transport</p> <p>Subsequently, trainings in cascade took place in each sanitary veterinary and food safety directorate.</p>	
Transport of animals unfit for transport species transported		
Exceeding density of loading animals		
The lack of watering or watering devices inoperative		
Lack of means of transport litter		
Lack of side walls to the loading		
Lack of documents attesting making washing and disinfection of means of transport		

By the service note no. 25772/10.04.2012 (INTRANET 4532), the sanitary veterinary and food safety directorates were asked to introduce on the INTRANET database all internal and external sanctions provided to national livestock carriers.

The service notes no. 26.462/18.07.2012 INTRANET 4612 and 25774/04.04.2013 INTRANET 4838 were convoked two working groups having the subject the modification and the completion of check-list used for controls during transport. They were prepared and submitted to all the sanitary veterinary and food safety directorates as to be used in controls carried out during transport.

There is also pending approval a service note for increased inspections to verify compliance with the protection of animals during transport, between 1 July to 30 September 2013. Inspections will be conducted in the following objectives: place of departure, place of destination, in the traffic, at long distance carriers, at short distance carriers and control points. This note contains a refresh of the notification procedure of the romanian contact point, where there are identified violations of the legislation on the protection of animals during transport made by foreign carriers / drivers in national territory in accordance with Council Regulation no.1/2005, art.26.

It also intends to change the amounts of the penalties provided for GD 984/2005 as

	amended and supplemented, so that they are effective, proportionate and dissuasive and new legislation to cover all non-conformities identified	
--	---	--

Non conformities found out during the controls carried out in order to check the way of observing animals' protection and welfare norms in farms	Action plan	Deadline
Lack of documents attesting to perform daily inspections	<p>At the beginning of 2013, it was issued the National Inspection for animal welfare, taking into account the following risk factors</p> <ul style="list-style-type: none"> • priority, have to be inspected all the farms that have been identified in the previous years with welfare problems, and the farms with large herds of animals. • all the laying hens farms, using enriched cages, alternative system, or organic system, and the production sites with pigs, calves and broilers chicken, will be inspected 100%. • it will be inspected all farms that, in previous years, used large quantities of veterinary medicinal products, or increased mortality were recorded (those data are outlined in treatment and mortality records and these records must be checked during the previous inspection). • Inspections in 0,5% from non-professional farms; is mandatory that, 50% to be backyards with pigs. • It will be take in account any data collected from fairs, assembly centers, slaughterhouses, and any penalties that were imposed for violation of the protection and welfare. 	31.12.2013
Lack of documents attesting to the quality of water and feed.		
There is no clear evidence regarding appropriate treatments and a record number of dead and intervention procedures for illness or accidents.		
In non-professional pig farms, the most common non-conformities related to the state of maintenance of shelters and lack source of artificial lighting		
In calves common non-compliance was the lack of blood hemoglobin determinations		
Lack of insulating basement sick or injured		

	<p>It also intends to change the amounts of the penalties provided for G.D. 984/2005 as amended and supplemented, so that they are effective, proportionate and dissuasive and new legislation to cover all non-conformities identified</p>
