THE FUTURE OF FOOD BANKS IN EUROPE

Quantifying the Impact of European Food Banks

From Farm to Fork

1 1 FEBRUARY / 2021 ONLINE MEETING

EU Platform on Food Losses and Food Waste Sub-group on Food Donation

Laura Gavinelli
Management & Training Consultant

This project has received financial support from the European Union through the Grant Agreement SANTE/2019/E1/FEBA/SI2.823068.

The opinions expressed in this event do not necessarily reflect the official position of the European Commission

With the support of

A project on digital transformation & data collection to support FEBA in expanding and strengthening its network in the EU

Mission of FEBA: supporting the promotion of the recovery of surplus food for human consumption, in line with the priorities indicated in the "EU guidelines on food donation" and as a contribution for achieving the SDGs.

A crucial step for reaching this objective is to gain and share common and reliable knowledge about the activities managed by the FEBA's network daily, and their impact on food waste prevention and food poverty reduction.

A project on digital transformation & data collection to support FEBA in expanding and strengthening its network in the EU

Project "Measuring quantifying the impact of European Food Banks.

From farm to fork" aims to measure the economic, social, nutritional and environmental impact of FEBA

The project has got 3 milestones

M1

• Definition of common indicators, dataset structure and data collection strategies

M2

 Development of the Observatory on Food Donation

M3

The project has got 3 milestones

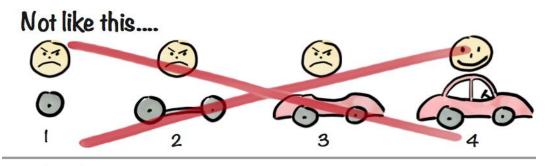

Pilot Group:

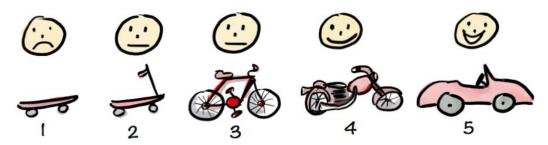

Definition of common indicators, dataset Belgium structure and data collection strategies **M1** Key role of Pilot Greece Group in: Hungary sharing information and experience, Ireland Development of the Observatory on providing indicators, Food Donation **M2** Italy testing the first release of the Norway platform, suggesting improvement Spain Promotion and dissemination of the Observatory on food donation UK **M3**

The agile approach

Like this!

Henrik Kniberg

Workflow

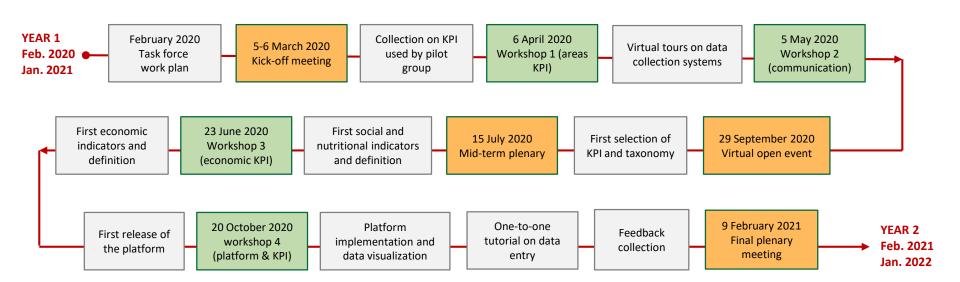

Approach: progressive and participatory discussion, bottom-up + top-down approach, flexibility + vertical insights on indicators

Activity with Pilot Group: workshops, individual virtual tours and sessions, individual interviews, data collection

Backstage activity: action plan, Task Force meetings, collaboration with external experts, literature review and reporting, ICT infrastructure

Workflow

February 2020 - January 2021

M1

• Definition of common indicators, dataset structure and data collection strategies

M2

 Development of the Observatory on Food Donation

M3

February 2020 - January 2021

M1

 Definition of common indicators, dataset structure and data collection strategies 94 indicators, 50 definitions, 2 out of 4 areas of impact covered (economic, social)

M2

 Development of the Observatory on Food Donation

M3

February 2020 - January 2021

M1

• Definition of common indicators, dataset structure and data collection strategies

94 indicators, 50 definitions, 2 out of 4 areas of impact covered (economic, social)

M2

 Development of the Observatory on Food Donation First release of platform, data entry on 2019 (test with pilot group)

M3

February 2020 - January 2021

M1

 Definition of common indicators, dataset structure and data collection strategies 94 indicators, 50 definitions, 2 out of 4 areas of impact covered (economic, social)

M2

 Development of the Observatory on Food Donation First release of platform, data entry on 2019 (test with pilot group)

M3

 Promotion and dissemination of the Observatory on food donation 4 workshops with pilot group, 3 FEBA plenary events, 1 open event

Indicators and taxonomy

94 indicators on Food Banks, recipients, food in/out, non-food in/out, financials, human resources, equipment, energy sources, partnerships

			European Food Banks Fed			
			Online Observatory on Food Donation - first release			
			List of indicators			
			January 2021			
	AREA	Mandatory	INDICATOR (title)	DESCRIPTION	UNIT OF MEASUR	
1 I	Food Banks	*	Total number of Food Banks	Number of registered Food Banks		
2		*	Number of warehouses	Total number of warehouses		
3	Recipients	*	Number of charitable organizations served	Number of charitable organizations with whom the member has got an agreement		
4		*	Number of end beneficiaries	Number of total people in the year receiving redistributed food from charitable organizations (and in some countries also from Food Banks)		
5			Number of male end beneficiaries	· ·		
6			Number of female end beneficiaries			
7			Number of end beneficiaries (0-6 months)			
8			Number of end beneficiaries (6 months - 3years)			
9			Number of end beneficiaries (3years - 14years)			
10			Number of end beneficiaries (14years - 18years)			
11			Number of end beneficiaries (65years+)			
12			Number of end children served	Number of 0-18 years old end beneficiaries		
13			Number of end adults served	Number of over 18		
	Food in	*	Food in	Total weight in net kilos of food received and collected by Food Banks; it		
14				also includes donated food, surplus food, food from collections and purchased food	kilos	

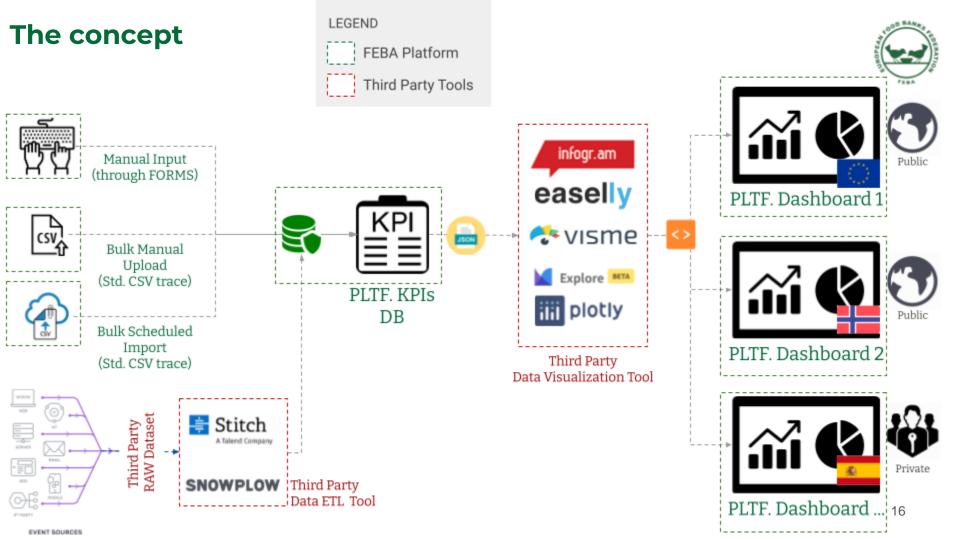

50 definitions

continuous comparison with literature and experts

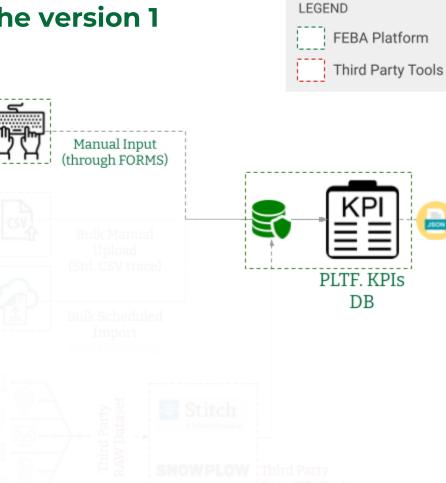

European Food Banks Federation
Online Observatory on Food Donation - first release
DEFINITIONS

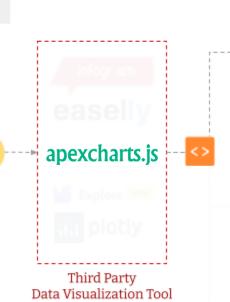

January 2021

INDICATOR (title)	DEFINITION
Adults	Over 18 years old beneficiaries
Agricultural and fishing sector	The agriculture and fishing sector represents the first stage in the food supply chain. It provides raw materials to manufacturing companies (e.g. cereals and milk) as well as products that can be brought to market without undergoing any prior processing (e.g. fruit and vegetables and fresh fish).
Charitable organizations	Non-profit organisation receiving food from Food Banks and/or directly from actors in the food supply chain. The charity, in turn, provides this food to its beneficiaries in various forms (e.g. food parcels, soup kitchens, meals served in social restaurants/cafés, etc.); some may also sell food products to people in need at a subsidised price.
Chilled food	Chilled food is food that is stored at refrigeration temperatures, which are at or between 0–5 °C.
Cold room	Refrigerated chamber, positive and/or negative.
Collected food	Food which is donated through food collections.
Community service (social contracts)	Performed by one person or a group of people for the benefit of their community. Community service is distinct from volunteering, since it is not always performed on a voluntary basis and is usually paid by public social funds.

The version 1

FEBA Platform

DB

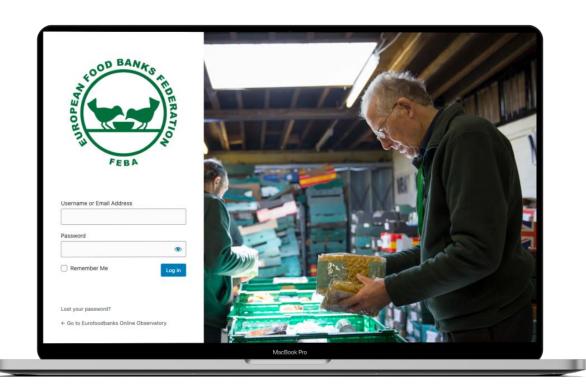

FEBA online Observatory on Food Donation: first release

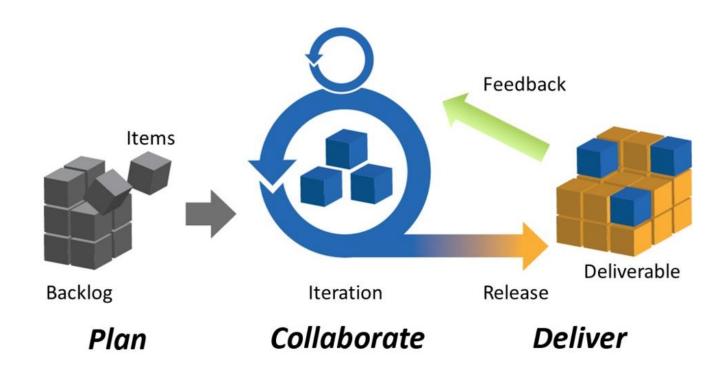

Feedback from Pilot Group: fuel for next version(s)

M1

• Definition of common indicators, dataset structure and data collection strategies

M2

 Development of the Observatory on Food Donation

M3

M1

• Definition of common indicators, dataset structure and data collection strategies

More indicators and greater data granularity; nutritional, environmental areas of impact; improved definitions

M2

 Development of the Observatory on Food Donation

M3

M1

 Definition of common indicators, dataset structure and data collection strategies More indicators and greater data granularity; nutritional, environmental areas of impact; improved definitions

M2

 Development of the Observatory on Food Donation 2nd release of platform; interactive maps on FBs; personalized dashboard; data entry by pilot group + other FBs on 2020

M3

M1

 Definition of common indicators, dataset structure and data collection strategies More indicators and greater data granularity; nutritional, environmental areas of impact; improved definitions

M2

 Development of the Observatory on Food Donation 2nd release of platform; interactive maps on FBs; personalized dashboard; data entry by pilot group + other FBs on 2020

M3

 Promotion and dissemination of the Observatory on food donation Data visualization; dynamic tokens (using KPIs in paragraphs); first communication strategy; access to dataset
