**AGENDA**

**Section B Draft(s) presented for an opinion**

- B.01** Exchange of views and possible opinion of the Committee on a draft Commission Implementing Decision amending Annexes I and II to Decision 2004/558/EC as regards the infectious bovine rhinotracheitis free status of several regions of Germany. (RS)

The scope of this draft is the official recognition of the IBR-free status of several German regions: three regions (Regierungsbezirke) in the Federal State of North Rhine-Westphalia and the entire territory of the Federal States Rhineland-Palatinate and Saarland. The application of the German central competent authority was positively evaluated and consequently those regions may be listed as officially IBR-free. Annexes I and II to Decision 2004/558/EC should therefore be amended accordingly.
