

European Union Comments
CODEX COMMITTEE ON FATS AND OILS
26th Session

Kuala Lumpur, Malaysia, 25 February- 01 March 2019

Agenda Item 8:

**Monitoring of the application of the Codex Standard for Fish Oils
(CXS 329-2017)**

(CX/FO 19/26/11)

Member States Competence
Member State Vote

The Member States of the European Union (MSEU) would like to thank Chile and Switzerland for coordinating the work on the monitoring of the application of the new standard on fish oils (CXS 329-2017).

Based on the substantial amount of data received, there are no problems in the implementation of the standard. For this reason, the MSEU are of the view that there is no need to extend the invitation to countries to provide data as suggested in paragraph 16(c). The MSEU further note that this does not prevent any country in the future to report to the Committee any issues experienced in the implementation of the standard.
