

Union reporting on the results of eradication programmes for 2022

Eradication programmes for category B and C diseases of terrestrial animals based on granting disease-free status at the level of establishments

AOB PAFF April 2022

Union reporting 2022

- 2022 was a transitional year – several eradication programmes adopted during the year – results not coherent
- ADIS reporting module not perfect
- No consequences for the Member States if the deadlines are not met or the reports are incomplete for programmes approved during the year 2022
- Focus on the numbers:
 - Total number of establishments and animals
 - Number of free establishments and animals kept in those
 - Number of establishments with confirmed outbreaks during the year

«To complete»

- The eradication programme has to be “completed” before the report is created
 - Territorial scope
 - Intermediate targets
