

Maize DP202216

Organisation: The European GMO-free Citizens (De Gentechvrije Burgers)

City: Lelystad

Country: The Netherlands

Type: Others...

Public: Yes

Comments:

Lelystad, 18-4-2024

The European GMO-Free Citizens and the Ekopark Foundation in Lelystad (the Netherlands) – do not wish to eat this genetically modified maize DP202216 as oil and other ingredients.

We want to eat unsprayed food that has not been genetically manipulated. This is also better for the environment and for our health and that of animals.

Nor do we want genetically modified maize as animal feed. If you were to approve it again (which we would regret), we would want every product and every end product, to be labelled as a GMO, even if GMOs can no longer be detected in an end product.

See all our comments on GM maize of an earlier date.
