

IBR / IPV – Situation in Austria

Final report

Federal Ministry of Health, II/B/10

SCoPAFF-meeting of

5 June 2015

Primary outbreak

-
- **27.1.2015 Suspicion of IBR-infection**
 - Cattle in an export-stable of a company in Söll (Tyrol, district Kufstein) showed not negative IBR-results!
 - **Taken measures**
 - Notification
 - Movement ban on all facilities of the company: company has access to facilities at three places: Tyrol (Söll, district of Kufstein, and Imst) and Upper Austria (Rutzenmoos, district Vöcklabruck)
 - Epidemiological investigations started

- **Tracing forward/tracing back:**
 - Contact farms in all federal provinces except Burgenland and Vienna
 - AGES-investigations: 661 holdings, > 8.600 samples
 - **26 positive holdings** (306 positive animals): 2 Vorarlberg, 18 Tyrol, 1 Upper Austria, 5 Lower Austria

Action taken I

-
- **30 January 2015:**
 - Obligatory investigations for exports to third countries
 - **20 February 2015** (Order to provincial Governor)
 - **Prohibition of cattle markets, agricultural cattle auctions, cattle shows until 28.02.2015**
 - **Since 1 March:** obligatory IBR/IPV investigations for bovines before going to a market
 - **24 February 2015:**
 - Investigation of bulk milk samples is allowed
 - Exception for holdings with no trade since 05.12.2014

Action taken II

-
- **09 March 2015:**
 - Before intra-Community trade, a negative test for IBR is obligatory
 - Reference to the requirements of the intra-Community trade, CH included
 - **22 April 2015**
 - Obligatory IBR-tests for animals or negative test result of the herd of origin for intra-Community trade including CH

Further investigations

- **Additional investigations:**

> 35.180 blood samples	> 6.890 holdings
> 10.220 bulk milk samples	> 5.670 holdings

> 45.400 samples	> 12.560 holdings
-------------------------	--------------------------

➤ Total number of holdings: > 65.200

➤ **Almost 20% of all holdings in Austria tested !**

➤ **Last outbreak 20 March 2015!**

State of play

2 holdings still under restriction

1 in Tyrol, no animals in the holding

1 in Upper Austria, fattening stock, slaughter in progress

**End of
extended measures
and additional investigations intended**

**Thank you
for your attention!**
