Slovenia has submitted a declaration for a surveillance programme as regards VHS and IHN for a compartment comprising of the fish farm Reka managed by the aquaculture business operator Olimp d.o.o. and parts of the water catchment areas of the stream Sevnica. The fish farm is rearing different categories of rainbow trout for the purpose of human consumption. The only fish population of the stream Senica is Marble trout, which is not on the list of susceptible species for the diseases of concern. The declaration is submitted in accordance with Article 50(a) of Directive 2006/88/EC for the purpose of obtaining a diseases free status as regards these diseases.

- A.07** Information from the UK on the varroa free status of the Isle of Man. (PB)

- A.08** Final update on the situation as regards Newcastle disease in poultry in Sweden (MP)
Sweden will present the summary of three ND outbreaks that occurred between 19/06 and 04/07.

Section B **Draft(s) presented for an opinion**

- B.01** Exchange of views of the Committee on a draft Commission Implementing Decision concerning animal health control measures relating to African swine fever in certain Member States and repealing Commission Implementing Decision 2014/178/EU. (FR/MP/FB)

The epidemiological situation regarding ASF in Eastern Member States requires adaptation of the control measures with respect to zoning and granting possible derogations from prohibitions of movements of pigs and certain pig products.
