(IC)

To facilitate the transition to new animal health certificates and animal health/official certificates for movements of consignments within the Union and between Member States it is necessary to establish a transitional period during which competent authorities should be able to use certificates issued in accordance with legislation applicable before the entry into application of Regulation (EU) 2016/429. In view of the need to provide for appropriate training of operators and of staff of competent

authorities in all Member States, such transitional period should extend until October 2021.

(CMB)

Moldova made a request for an authorisation for the transit, through the Union, of ice-creams, which are considered non shelf-stable composite products containing dairy products. In order to be granted that authorisation, Moldova made a request for being placed in column C of Annex I to Regulation (EU) No 605/2010, as a third country whose raw milk and dairy products have undergone the treatment required by that Regulation (treatment ‘C’) to mitigate the risk of spreading foot-and-mouth disease through dairy products. In view of the guarantees given by the Moldovan competent authorities on the correct application of treatment ‘C’ on the milk products contained in the composite products, it is appropriate to place Moldova in column ‘C’ of Annex I to Regulation (EU) No 605/2010.
