BB: Brandenburg SN: Saxony

MV: Mecklenburg-Western Pomerania

BW: Baden-Wurttemberg

NI: Lower Saxony

wb: wild boar dp: domestic pigs Date: 13/09/2023;

Time 11:26:00

ASF - Overview: Wild boar

ASF – Overview: Domestic pig

ASF – Mecklenburg-Western Pomerania (MV) and Brandenburg (BB)

Measures: Carcass searching

	Carcass searches		hum	nan chains	drones		
	Search		Search			Search	
	Missions	performance	Missions	performance in	Missions	performance in	
		in km²		km²		km ²	
MV							
TOTAL	2.713	4.069,5	57	122,89	102	634	

BB

Over 1800 area-wide carcass searches using chains of people, trained carcass dog teams and of drone technology (drones were used nearly every day)

Measures: Monitoring

Samples MV/ Year	active	passive	TOTAL
2021	11.246	587	12.304*
2022	25.607	479	28.230
2023	11.313	228	12.732

Samples Ludwigslust- Parchim	active	passive	TOTAL	
2021	1.567	170	1.870	
2022	8.691	244	9.513	
2023	4.170	123	4.618	

^{*}The difference in the total is due to samples being sent in without stating the cause of death.

In addition, a risk-oriented ASF antibody test was carried out on approximately 1,800 wild boars during the above-mentioned period of time.

Samples BB/ Year	active	passive	TOTAL	
2021	33.793	3.588	37.381	
2022	31.531	2.096	33.627	
2023	14.562	1.106	15.668	

Samples Prignitz	active	passive	TOTAL
2021	384	24	408
2022	2317	82	2399
2023	909	26	935

Measures: Monitoring

Measures: Testing of kept porcines

	Number of tests for early ASF detection							
Area	in kept porcine							
	2021	2022	2023					
MV	8.251	9.419	4.987					
district LUP	2.039	3.246	1.434					
Brandenburg	14.924	14.795	6.405					
district PR	244	381	545					

No ASF-outbreaks in kept porcines in the districts Ludwigslust-Parchim and Prignitz!

Measures: Fences in the affected area

Future measures in the formerly affected districts

In particular:

- maintain main parts of the fencing for some time
- Risk oriented carcass searches (chain search, dog teams, drones)
- maintain the collection points for carcasses and offal till the end of the driven hunt season (approx. 4 months)
- continuing ASF PCR testing of wild boar (carcasses and sick wild boar) and removal of carcasses

Future measures in the formerly affected districts

In general:

- continuing the cooperation with hunters: Wild boar reduction and promotion & application of biosecurity measures during hunting
- Awareness campaigns: press informations, print material, online/web
- ensure biosecurity in pig holdings, preventive ASF PCR testing of dead pigs in pig holdings
- Training the staff at the competent authorities; providing material, keep current contracts, maintain contact to stakeholders and persons in charge to take prompt action
- Review/leassons learned prepare for possible new ASF cases

ASF: Free communities

in RZ II: either never affected or free again of ASF
