By that date:
227 outbreaks in
Bács-Kiskun and
Csongrád-Csanád
counties

Ministry of Agriculture

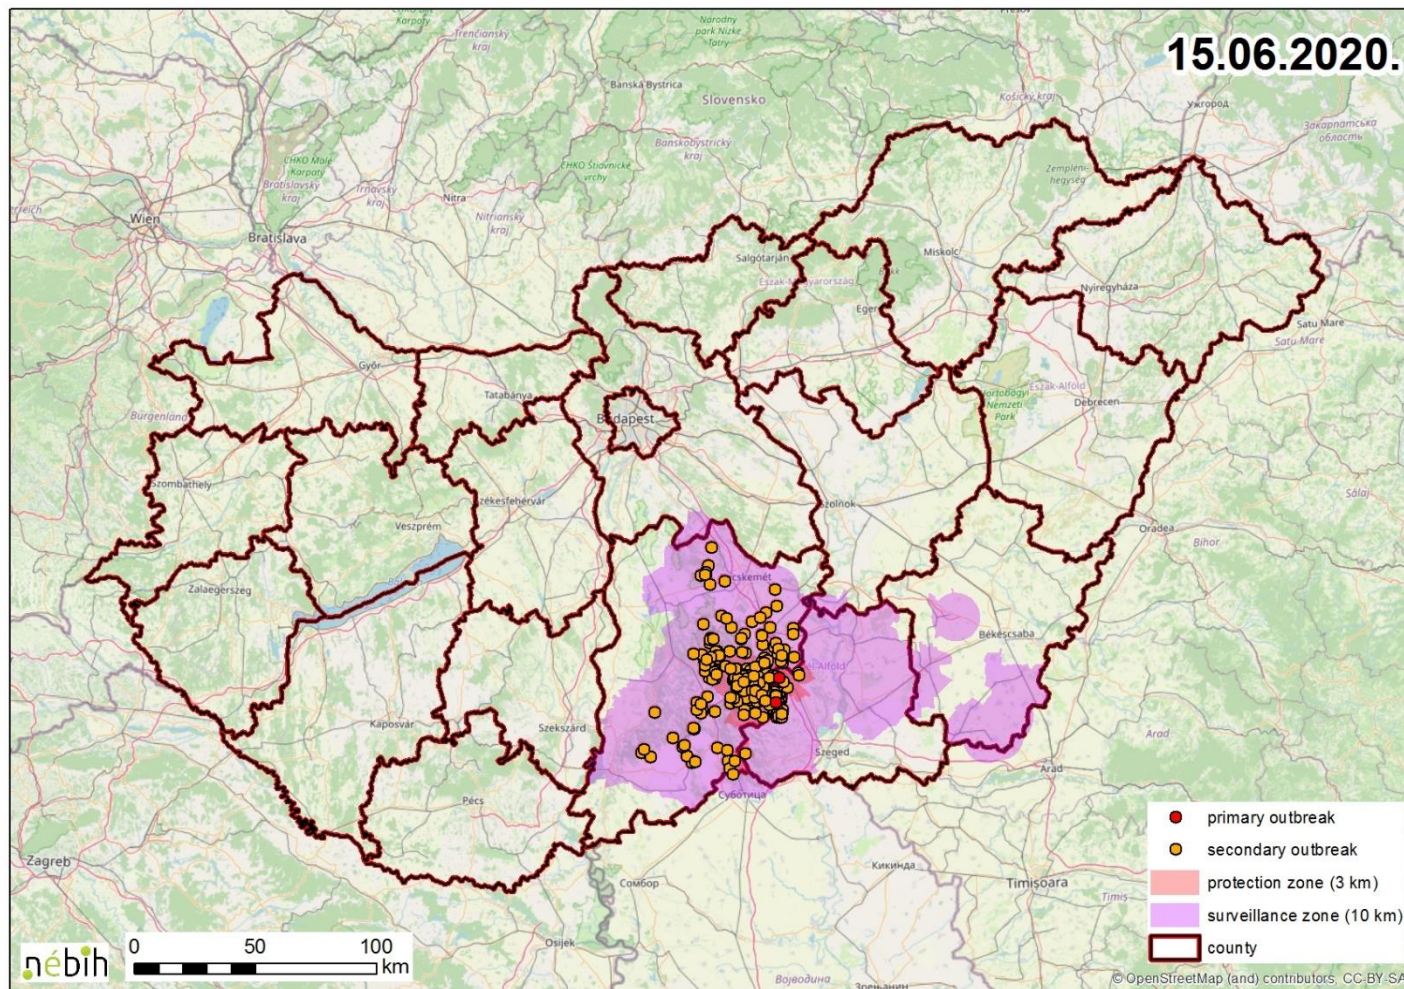

Situation on 5th June (last outbreak)

Ministry of Agriculture

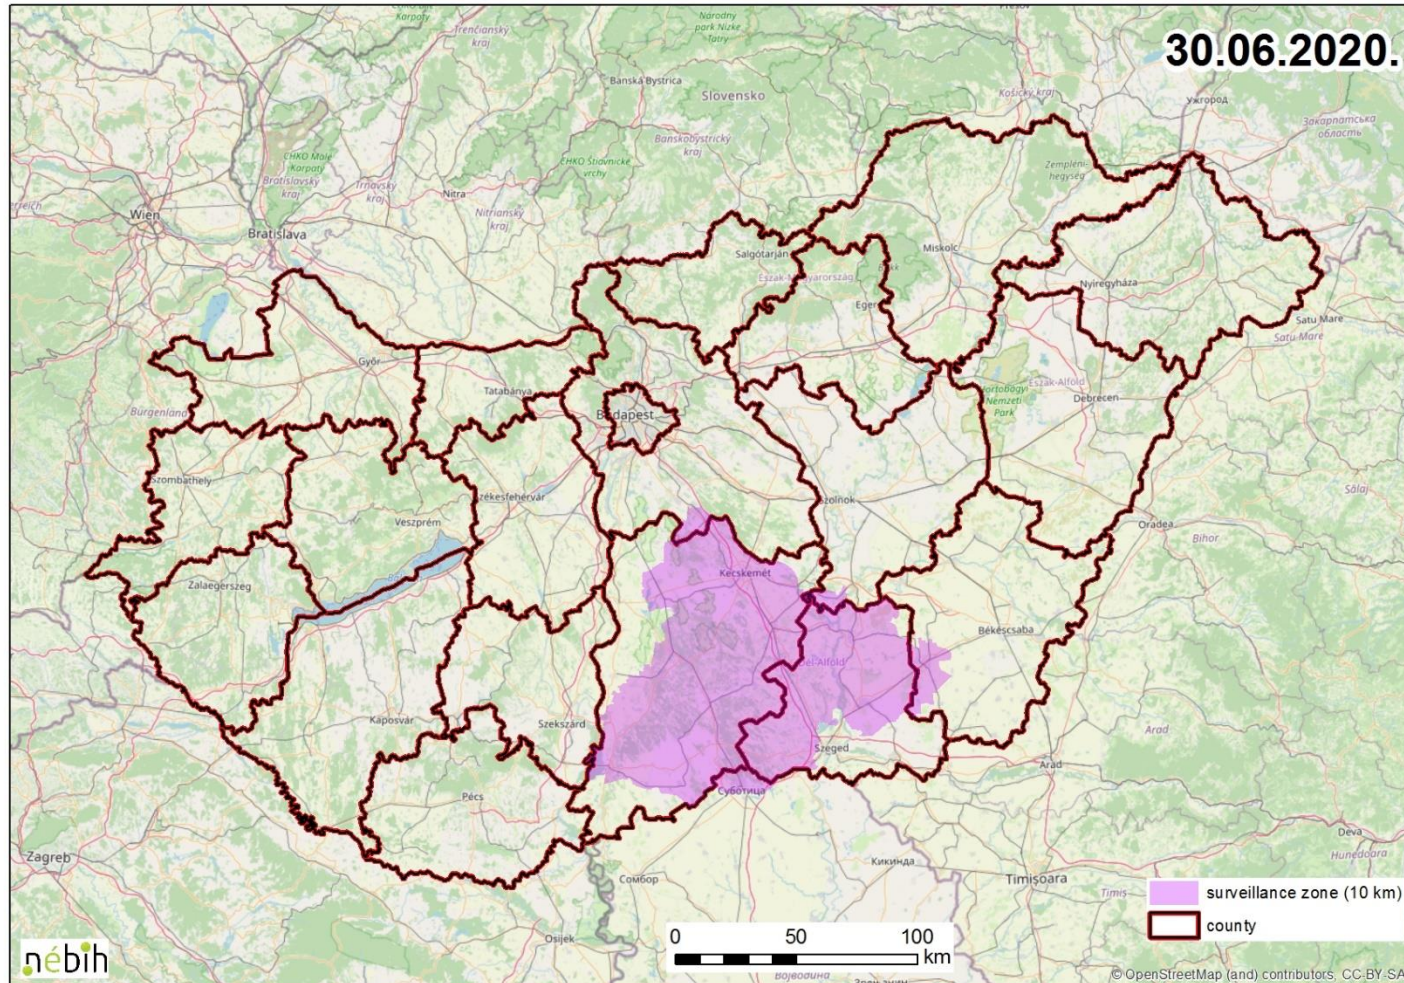

Situation after 15th June

Ministry of Agriculture

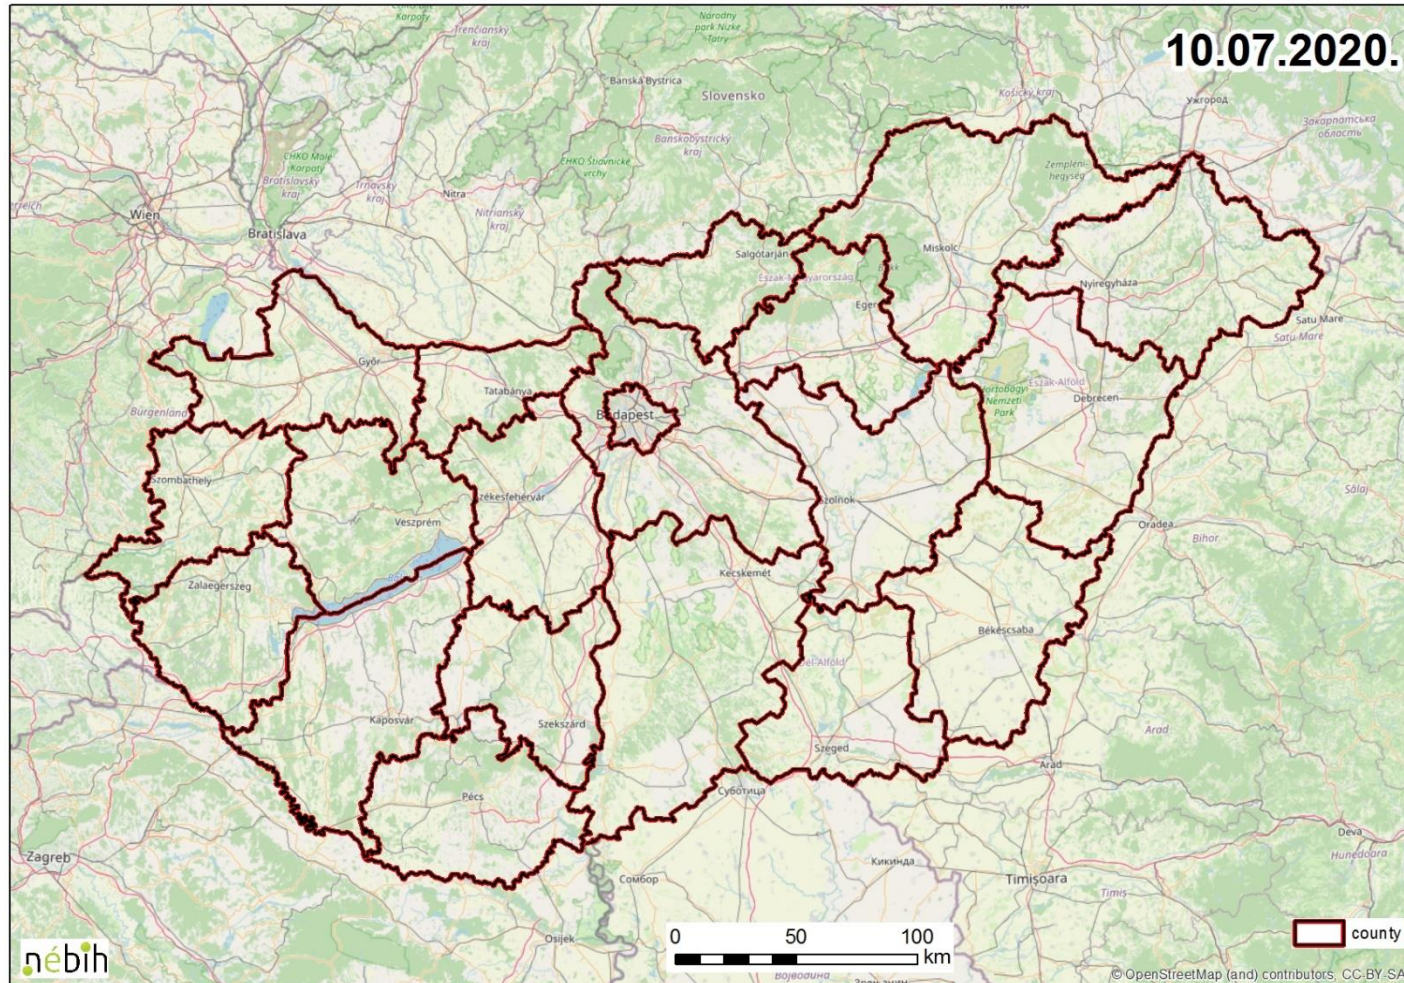

Situation after 30th June

Ministry of Agriculture

Current situation

Epidemics in numbers

237 outbreaks in Bács-Kiskun county
27 outbreaks in Csongrád-Csanád county
5 outbreaks in Békés county

24 outbreaks confirmed from
tests taken before transport
4 outbreaks confirmed from
tests of preventive killings

Depopulation (due to outbreaks, suspicion or preventive killing)

350 holdings in Bács-Kiskun county
42 holdings in Csongrád-Csanád county
7 holdings in Békés county

4 760 776 birds killed of which preventive killing: **1 102 182** birds

Epidemics in numbers - holdings

| | | |
|---|---|-------------------------|
|  | 61 duck | |
|  | 111 geese | |
|  | 56 mulard | |
|  | 22 Gallus gallus | |
|  | 9 turkey | |
|  |  | 4 Gallus gallus+duck |
|  |  | 2 Gallus gallus+turkey |
|  |  | 1 pheasant+partridge |
|  |  | 1 guinea fowl+turkey |
|  |  | 1 Gallus gallus+peacock |
|  |  | 1 duck+geese |

Ministry of Agriculture

Numbers in the protection zones during the epidemic

Bács-Kiskun county

Census: 1 144 910 animals

Surveillance: 21 260 swabs in 254 holdings

Csongrád-Csanád county

Census: 672 213 animals

Surveillance: 11 834 swabs in 135 holdings

Békés county

Census: 29 850 animals

Surveillance: 1 270 swabs in 8 holdings

Ministry of Agriculture

Numbers in the protection zones before restocking

Surveillance of holdings 95% specificity and 10% prevalence/zone

60 animals/holding (20 cloaca swabs, 20 trachea swabs, 20 blood samples)

Bács-Kiskun county: 20 commercial, 30 non-commercial holdings

Csongrád-Csanád county: 2 commercial, 30 non-commercial holdings

Békés county: 8 commercial, 30 non-commercial holdings

Restocking

in accordance with Council Directive 2005/94/EC

CVO order 3/2017 is still in force (poultry should be able to be closed if ordered, requirements on stocking density, etc.)

New restocking procedure introduced in the areas affected in the 2020 epidemic

- Developed in cooperation with the Poultry Product Board
- Statement of PPB and integrators – taking into account the specificities of the sector
- Compulsory testing in force before moving for further keeping or for immediate slaughter

Surveillance in the whole country from 1st January until 9th July

| County | Virology | Serology |
|-------------------|----------------|--------------|
| Affected counties | 111 427 | 4 296 |
| Free counties | 3 122 | 358 |
| Total | 114 549 | 4 654 |

| Species | Virology | Serology |
|--------------|----------------|--------------|
| Poultry | 114 075 | 4 653 |
| Non-poultry | 474 | 1 |
| Total | 114 549 | 4 654 |
