EU reply to CL 2023/63/OCS-FO

Request for comments on the proposed revision of the list of acceptable previous cargoes (CXC 36-1987, Appendix 2)

European Union Competence

European Union Vote

The European Union (EU) agrees that for ammonium sulfate solution, wine iodines and urea further information needs to be provided to the Committee, prior to considering their inclusion in Appendix 2.

The EU would not agree to the inclusion of cyclohexanol and cyclohexanone in Appendix 2 because of their genotoxic and carcinogenic potential.

The EU agrees to the inclusion of fructose, hydrogen peroxide and urea ammonium nitrate solution in Appendix 2.
